IT'S MORE THAN A
CHANGING TABLE
IT'S A WELCOME SIGN

The Universal Change in Changing Stations

Universal Changing Tables (UCTs) provide safe, hygienic access to public restrooms for Individuals who may not be able to use standard handicapped accessible restrooms. Universal changing tables are an essential step toward inclusion and equality and can transform the lives of millions of people with disabilities and their caregivers.

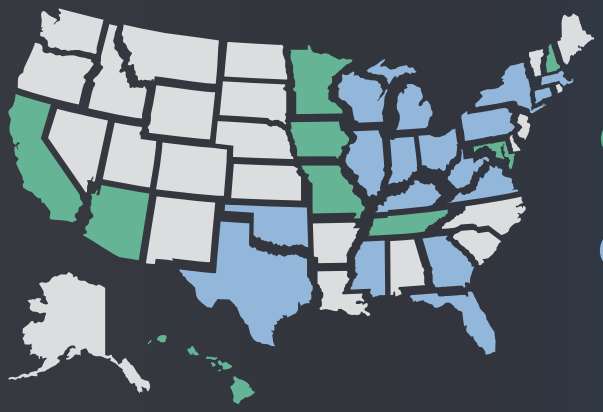
25%
of adults report having some type of disability

12.1%
of Americans have disabilities relating to mobility

7.2%
of Americans report difficulty with independent living

3.6%
of people struggle with self-care like dressing, bathing, and toileting

SOURCE: CDC DISABILITY & HEALTH DATA SYSTEM



Universal changing tables are already prevalent in Europe and as of 2024 are mandated in public facilities by the International Building Code (E142-21). They are required in many counties and cities across the United States and Canada, with laws or executive orders currently enacted or proposed in 26 states.

Developed for those with disabilities

Engineered for architects

Built for facility managers

The Ascent Difference

Drawing on decades of innovation and leadership in the public washroom space, Foundations combines the latest technology with outstanding value to build the best universal changing table on the market. Ascent is the ONLY changing table in its class that is **engineered, manufactured, and warranty serviced in the USA.**

A Smoother Experience for Everyone

PEOPLE WITH DISABILITIES • CAREGIVERS • ARCHITECTS • BUILDING & FACILITIES MANAGERS

Designed for comfort. Built to last.

Large, contoured changing tray offers maximum support

Wraparound styling ensures snag-free loading and unloading

Backup battery provides safe, continued use even during power outages

Limited 5-year warranty

Easy to install. Easy to use. Easy on the budget.

Mounts to most existing walls for quick setup without costly retrofit

Dual-control buttons ensure easy height adjustment for smooth transfers and comfortable positioning

Handy attached power cord plugs in directly to GFCI outlets/protected circuit or hardwire

Table Surface Size Overall:
76.5” x 34.75”

Usable Tray Size:
70.5“ x 30.125”

Height Adjustability Range:
16” to 39”

Tray Depth:
9.5” when closed, 41” when open

Weight Limit:
Up to 500 lbs.

Certifications:
IK10 impact
IPX6 water ingress
UL 962 certification & CSA22.2 NO. 68

High performance. Low maintenance.

The only table in its class engineered, manufactured and warranty serviced in the United States

Direct attached actuator ensures a smooth, lag-free experience and superior performance

Robust structure provides unwavering strength and reliability for less upkeep

Safety first. Safety always.

Safe working load of up to 500 lbs. (highest on the market) and tested functionally to 1250 lbs.

Automatic retracting feature stops operation and reverses direction if it detects an obstruction

Green and red indicator lights and sounds provide an extra layer of safety

Simplified cleaning. Peace of mind.

IPX6 rating enables safest, most thorough cleaning on the market

Changing surface is free of exposed fasteners, eliminating hard-to-clean cracks and crevices

Vacuum-formed changing surface is made of ABS plastic that resists bacteria without added chemicals

ASCENT

Welcome to a New Level of Inclusion

Height-adjustable from 16” to 39” with smooth dual-controlled buttons

Supports a safe working load of up to 500 pounds of weight

Soft-plunge release tray and automatic retracting safety feature

Mounts to most walls (avoiding costly and time-consuming construction)

Engineered, manufactured, and warranty serviced in the USA

Rated for IPX6 water ingress protection for safest cleaning on the market
